Ladies' and Girls' Ready-to-Wear Garments.

What is Generally Accepted As Correct

Gray, in all its shades, has by universal acceptance been proclaimed the king of colors for Autumn 1905. The most reliable fashion delineators hinted some time ago that this would be the case, so we took the hint and turned our thoughts and endeavors toward bringing together a contrasting assortment of correctly and stylishly modeled suits in all the various shades of gray.

Every true woman's aim is to be stylishly dressed, and no woman can be considered stylishly dressed unless she is correctly dressed. In getting a suit here you are assured of the latter; therefore, further argument would be superfluous—our stock of suits being at once correct, stylish, and in every way first-class.

One graceful long coated model at \$25.00 is composed of best quality homespun cloth in a stone gray shade. A model forming an ideal "all occasion" suit being serviceable, yet essentially dressy. Other long coated styles are made of novelty materials, cut upon mannish lines, and carry unique individuality with them, which make them distinct from all others.

Tailored Suits \$12 to \$75
Separate Skirts \$5 to \$25
Silk Waists - \$5 to \$35

Declined to get off the Bench.

The following was sent from Winchester on Sept. 20:

When the contempt case against James Hargis was called at Winchester the Commonwealth answered ready. Judge Hargis filed an affidavit which, with Judge Henton's remarks, is sensational. He alleges that he believes Judge Henton who will try the case is his bitter enemy since a business transaction five years ago and extending into politics; that he believes Henton wishes to get rid of him as a politician, and that they do not speak; that the proceedings were instituted against him by personal and political enemies, and that they are circulated in Breathitt county, where he is a candidate for reelection for County Judge; that Henton will force the trial at this time in order to injure him; that Sheriff McCord is also his enemy and is now keeping and training

Mose Feltner to testify against him; that he believes Judge Henton is disappointed on the small verdict found against defendant in the Marcum damage suit, and is pushing the present case in hope of nullifying him of the damages he failed to get before. On these counts he says he cannot have a fair trial before Henton and asks him to vacate the bench.

Judge Henton declined, and said as to Judge Hargis and himself not speaking that before Judge Hargis filed a similar affidavit in the Marcum damage suit they had always spoken; that the same day the former affidavit had been filed they had met on the streets of Winchester and spoken most cordially; that Judge Hargis had ceased to speak for reasons known to himself, and if he should vacate it would set the precedent that if a litigant desired a Judge to leave the bench he should simply stop

speaking; that the court cannot be responsible for political lies circulated in Breathitt county; as for the other allegations, if the statement had been made that they were true, and not simply based upon the belief of Hargis without stating any foundation for the belief, he would not hesitate to vacate; that he might have said in a political meeting that Judge Hargis, being a State Central Committee man, was a disgrace to the Democratic party, but he did not remember it.

Life Is Embittered.

Life is too often embittered by the grievous pains and suffering caused by dyspepsia, in one or the other of its many forms. No other disease covers such a wide range of symptoms, or causes such varied suffering, to its victims. Stomach ache, headache, dizziness, nausea, biliousness, constipation, fever, etc.,—all are due to this one dreadful disease. No wonder that thousands are so enthusiastic over the cure of their disease by Dr. Caldwell's (laxative) Syrup Pepsin. It is a most marvelous, potent, and universal cure. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-41.

Cultivation of peach orchards especially should cease in August on account of causing too late a growth of wood, which may be injured during the winter. In many cases the peach may be benefited by a mulch of coal ashes.

Family Skeleton.

Many a person's family skeleton is a state of weak digestive organs inherited from careless ancestors. The skeleton can be laid to rest by Dr. Caldwell's (laxative) Syrup Pepsin. Better doses at once, otherwise it will dog you daily, and keep you in constant misery, and in danger from worse complications. Syrup Pepsin is a specific for indigestion, constipation, headache and biliousness. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-41.

There is no better season to cut off water sprouts, suckers and small limbs from all kinds of fruit trees. Such is the growth of the tree in August that few new suckers are reproduced, and when once cut off the job is done properly.

Fruit on the farm always has its selling value, even if the trees are not old enough to produce. The promise of fruit is there, and the buyer will always take it in payment. Even if you don't want to sell, the fruit will be of value to you.

THE LIQUOR TRAFFIC.

The Grand Lodge J. O. F. to Bar the Dealers.

The chief interest in the session of the Sovereign Grand Lodge of Odd Fellows held in Philadelphia on September 20th centered about the question of the liquor traffic as being a bar to membership in the organization. The report which was read by Representative Goudy and later approved by the body in session decided in brief that no one can remain a member of a lodge who is engaged in the liquor business in any way unless he was a member and so engaged and has been continuously since the first ruling was made at the 1895 convention at Atlantic City. The test case which aroused the specific question at this time was that of a man, who being engaged in the liquor business, became a member of a lodge. The adopted report decided that "His membership must be recognized until terminated in a manner provided by law." It is the duty of the subordinate lodge to terminate his membership unless the member has since retired or shall retire from his business in question and thus have removed the constitutional prohibition; shall voluntarily resign his membership.

TWO ROUTES TO CALIFORNIA.

Three Routes to Pacific Northwest Afforded By Rock Island System.

Are you going west this summer on that long deferred vacation? An unusual opportunity is presented that you can't afford to miss. Greatly reduced rates for summer tours to the Pacific Coast—Los Angeles, San Diego, San Francisco, Portland, Tacoma, Seattle. Rock Island is the way to go. Via New Mexico, Colorado, Wyoming or the Northern route. Full details and illustrated literature from John Sebastian, Passenger Traffic Manager, Rock Island System, Chicago.

An orchard will not thrive in flat, wet soil. In a majority of cases under-draining will put the soil in a good condition and cause the trees to thrive. The drains should run between each row, and should be put down at least below all danger of frost.

Clover grown in orchards and plowed under is about as good and cheap a method of manuring the trees as can be conveniently used.

Made A Hit.

When Dr. W. B. Caldwell, the sage of Monticello, first prescribed his great remedy for indigestion, constipation and biliousness, now known as Dr. Caldwell's (laxative) Syrup Pepsin, its success was so great that it made an instant hit. Since then it has been used all over the world and has never failed to duplicate its first successes. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Your money back if it fails. 12-41.

Russell Sage, multi millionaire and prince of the order of tightwads has just ordered \$18 worth of Bour whiskey from a L. U. avile dealer. Russell evidently intends to get tighter.—Glasgow Times

Mystery Deepens.

Mystery deepens as to why so many millions persist in suffering from such fearful afflictions as dyspepsia, constipation, etc., when they could so easily get rid of every one of their troubles by a dose of Dr. Caldwell's (laxative) Syrup Pepsin. Have you tried it? If not, do so today. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-41.

Perhaps when Mr. Roosevelt pointed a business associate of Mr. Morgan to his official household he had an eye to the national debt and wanted some experienced advice as to how to underwrite the debt amount Mr. Roosevelt has a good eye at all times to the windward it is clear.—Pittsburgh Register.

BENEFIT TO MANKIND.

One of the Greatest Discoveries of the Nineteenth Century.

There is nothing in the way of a discovery in the nineteenth century that has proved of greater benefit to mankind than that of two eminent French chemists, Morques and Gautier by name, who discovered a way to separate the medicinal curative elements, of which there are about fifty different kinds in the cod's liver from the oil, and give to modern medicine all the tonic, body-building and curative properties of that grand old remedy cod liver oil, unencumbered by the oily greasy part, which science had proved of no value whatever, either as a food or medicine. Thus they produced Vinol.

Vinol is guaranteed to contain in a highly concentrated form all the medicinal elements of cod liver oil, actually taken from fresh cod's livers, and wherever oil-fashioned and liver oil or emulsions will do good, Vinol will do far more good—for being without oil it is delicious to the taste, easily assimilated and won't upset the weakest stomach.

Vinol tones up the digestive organs, creates a hearty appetite, makes rich, red blood and creates strength for old people, weak women, young children and after sickness, and for all pulmonary troubles it has no equal.

So strong is our faith in Vinol that we freely offer to return money in every case where it fails to give satisfaction. Wm. S. Lloyd, Drugist.

SHAKE IT OFF.

Rid Yourself of Unnecessary Burdens.

Don't bear unnecessary burdens. Burdens of a bad back are unnecessary.

Get rid of them. Don't's Kidney Pills were bad kidneys, (Cure lame, weak and aching backs). Cure every form of kidney trouble. Lots of endorsement to prove this.

D. D. Connor, proprietor of Fordham Hotel, of Main St., Paris, Ky., says: "Off and on for several years I was troubled with kidney complaint. The pains across the small of my back were at times sharp and piercing, causing me considerable suffering. I did much doctoring but was not helped. A friend brought me a box of Don't's Kidney Pills and I was much gratified with the good results. I obtained from their use such great and needed relief that I endorse the claims made for Don't's Kidney Pills and believe they have been equal as a kidney remedy."

Plenty more proof like this from Mt. Sterling people. Call at F. C. Dueson's drug store and ask what his customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., United States, sole agents for the United States.

Remember the name—Don't's—and take no other. 12-41.

Travelers' Rest.

Few persons who know the historic associations which cluster about "Traveler's Rest," the old home of Isaac Shelby, Kentucky's first Governor, will learn of a destruction by fire several days ago without feelings of painful regret. To the generations of more than a century ago it was known as true to its name for its hospitality, where, in the later, as in the early days of the State, the latest stranger was always on and the weary traveler found a warm, comfortable welcome. It was situated in Lincoln county on the main thoroughfare passing southward from Danville, one of the first trails of the pioneers penetrating the typical business region. Its historic association with it was one of the most interesting spots, having been the first settlement and pre-empted by the first settlers of the State, granted in Kentucky by Virginia. The grant was made to Isaac Shelby in 1782 and shortly afterwards he settled there, having married at Bonhomme, Susanna Hart, the second daughter of Nathaniel Hart, one of the proprietors who had organized the Transylvania settlement in 1775. From that date the name of Traveler's Rest was given to his home and here he resided until his death in 1826, but still remains in the family, being the property of a great grandson and namesake. At the time of his death he was the only individual in the State residing on an original settlement and pre-emption, and there is no other instance in Kentucky of such a continuous ownership of property by the same family.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Balm. At any drug store. 12-41.

The Baptist church of Mt. Sterling, at their regular monthly business meeting dropped the names of forty-two of their members from their church roll for non support, non attendance and a general lack of interest in the church affairs.

Laws should be so framed and executed as to make it easy for people to do right, and hard to do wrong.

REPORT AND RECOMMENDATION

Of the Grand Jury of This County.

The Grand Jury finally adjourned Friday after making the following report to the Court:

"The Grand Jury respectfully reports that it has been in session eleven days and has reported 35 indictments for various crimes and offenses. We have examined the reports of the officers made to your Court and find same correct so far as we are able to tell. We visited the county jail and find it in good condition and well kept. We visited and examined the County and Circuit Clerk's offices and deem them clean, and recommend that the vaults in both of them be made burglar proof as far as possible; and further recommend that the combination lockers in the vault door in the Circuit Clerk's office be used at night. Having examined a number of witnesses in regard to the stolen indictments from the Circuit Clerk's office, we have been unable to get any evidence whatever.

"We recommend that the Fiscal Court and Road Supervisor be required to make an official report of the financial condition of county and pike appropriations each fiscal year and publish same in one county paper.

"What paper, any? There are four papers published in the county—two Democratic, two Republican, one of which is known as the colored paper. Which would the Jury have it in, one of the largest circulation, or in one paper?"

"We further suggest after due inquiry from a number of our best citizens, that it is the wish of the people of this county that contracts for all turnpike work be let by sealed bids.

"We have examined the report recently published in the county papers, and have been unable to agree on the actions of some of the county officials.

"This paragraph is an indefinite thing and as meaningless as indefinite. That report shows that the county got full value for every dollar expended and should be satisfactory to the taxpayers, and doubtless is. Ed.

"We desire also to express our thanks to the sheriff, jailer, at turnkeys and county clerk for their willingness and promptness in assisting us during our sitting."

"We would also state for the benefit of the public that the combination locks on the vault of the Circuit Clerk's office are being used and that no kick is due from that source. Ed.

CLARK COUNTY.

Dr. W. A. Bush has received a letter which states that a man was shot and killed at Devore, W. Va., on September 5th, and that before his death he stated that he lived in this city and that he had a wife and three children living here. His name is said to have been James Roberts, but no one seems to know him.

The Court of Appeals affirmed the decision of the Clark Circuit Court in the case of James Williams,

indicted for allowing a minor to play in his pool room. The Court says that appellee must have known the boy was a minor to have been guilty under the statute, and his knowledge of the fact was not proven.

Wednesday night in our classic Buoktown, Mose Mitchell shot and instantly killed James Halley. Both are negroes and the trouble arose over a crap game. The special grand jury on Thursday returned an indictment against Mitchell for the murder, and his trial was set for Friday.

The Grand Jury returned indictments against Allie Harrison and Ed Oder, of Lexington, for criminal conspiracy in attempting to defraud the county and the state in the matter of back taxes due from the Ford Lumber Co. They were arrested by the officers of Fayette county, and gave one thousand dollars bail.

The corn and alfalfa special was here. Quite a crowd was at the depot. A gentleman from Ohio who had grown alfalfa for a number of years, gave a short and very practical talk and distributed a number of pamphlets. The gen-

tleman from Iowa, who was to talk about corn, was left without an audience, all desiring to hear about alfalfa.

Killed at Stanford.

At Stanford Tuesday of last week, John Farris was shot and killed by R. Lee Sims. Both were prominent race horse men.

At Lexington, Henry Robinson, colored, on the witness stand, admitted that he set fire to the J. B. Haggins stock barn recently burned. The case against Lee Anderson, the night watchman, also indicted, was then dismissed.

The Annual State Convention met at London, Ky. on Friday evening. Six welcome addresses were made on behalf of the ministry, lawyers, schools and citizens, local union and people of the mountains. Mrs. B. F. Thomson, President of the Mt. Sterling Union, responded to these. Mrs. Robert Armstrong and Miss Mary L. Armstrong are also in attendance. The convention closed last night.

AMMONITE NOT DANGEROUS

Barren Wreck at Erie-
burg Brings Out Much Talk
About the Explosive.

The recent railway accident at Erieburg has brought out a great deal of irresponsible talk about the danger of ammonite. A man who had purchased a barrel of that explosive for blasting purposes, "The majority of persons who talk about ammonite have only a vague idea of what it is. Ammonite is not the dangerous substance it is popularly supposed to be. It may be handled with absolute recklessness by an experienced man, and will not detonate except under well-defined circumstances. A detonation is not 1000 times quicker than explosion. Ammonite detonates. It does not explode."

"Ammonite in its marketable form, in order to fit into drill holes, is shipped in sticks varying from half an inch to two inches in diameter, and from three inches to four feet in length. In the country of its manufacture, before its properties were fully understood, there were some minor, but not dangerous, explosions that gave ammonite a bad name it has never recovered from. Time has made us wiser. There is no danger at all in children finding odds and ends of ammonite thrown away by careless workmen. A child would find a great deal of difficulty in exploding it. Every now and then we read of somebody receiving a supposed infernal machine containing dynamite, which is promptly exploded in water before it can be opened. If it was really dynamite it would explode just as readily under proper conditions, if it were in 20 feet of water."

"Dynamite is nitroglycerin held in an absorbent—wood pulp, coal dust or other material—that will hold the explosive tightly. It is a powder of a resinous nature, varying in color with the absorbent used. The strength is calculated by the amount of nitroglycerin absorbed by the carrier, varying all the way from 20 to 80 percent."

"For commerce purposes stick dynamite is packed in 25 pound or 50-pound cases, with a liberal allowance of sawdust. It can be freighted or stored without danger, provided common intelligence and care be used. It is only when ignorant persons attempt to experiment with it that it becomes a powerful destroying agency. In some states its transportation by rail is governed by strict law. It should be so in every state. In New York and other cities its transportation through the streets is regulated by the fire commissioner. The police have nothing to do with it."

ELECTRICITY IN WAR ARCTIC

Japanese-Russian Conflict Is a Good Example of the Use-Too Aided in Battle.

We have seen how all important electrical methods of communication are to an army on the offensive from the recent campaign in Manchuria, says a writer in the Electrical Review. We have also heard—however, rather indefinitely—of the important part played in the recent naval battle by the Japanese wireless telegraph apparatus. At the battle of Mukden it was the telephone and the telegraph which really won the fight, and now it is played by the Japanese wireless telegraph system in the recent naval battle was just as important. It is said that Admiral Togo had many small scouting vessels equipped with wireless apparatus, which were watching the Russian fleet constantly and communicating with shore stations, the latter forwarding the information to the admiral. At no time after the Russian fleet approached Japan was he ignorant of its position. But it is another use of electricity in the art of war to which we wish call attention—the coast defense service. It is being used here for many purposes. To operate the power plants and the electrical apparatus in the United States coast defense requires about 200 officers and 5,000 men."

MAKING MACARONI HERE.

That and Other Facts Concerning
Machinery Made in Italy Now Pro-
duced in America.

Macaroni, vermicelli, sticelli and other paste foods originally made in Italy are manufactured from kinds of wheat which contain a goodly percentage of gluten. The flour obtained from these kinds of wheat, when mixed with water, forms a peculiar dough, says the Chicago News. In America the mixing is done by modern machinery, and this operation is followed by that of mechanical kneading, which results in producing a firm, hard paste. The flour is dumped into the mixing vats by the sack, and hot water by the bucket. The dough is then rolled out by means of revolving machinery in these vats. Then the dough is rolled upon a flat surface by a large stone or iron wheel which, like the mixing machinery, revolves. The kneading operation follows, and the strips are cut to the size of those desired. Experienced Italians are, in many factories, in charge of all the processes.

This firm, hard paste from the kneader is removed to double-cylinder presses, in which it is forced downward through copper rollers. On the size of these rollers depend the size and shape of the finished product. Vermicelli comes from the press in more strings or shreds. Sometimes the strips of macaroni are five or six feet long. Vermicelli may be but six or eight inches in length. After coming from the presses the strips are placed on racks and then hurried away to the drying rooms. The short fancy shapes are dried and cured upon trays. Mechanical fans assist in all the drying operations. Before coming to the drying room the strips of macaroni are sometimes placed beneath blankets to moisten them. This keeps them from becoming cracked in the drying room. There is a steady increase in the demand for macaroni in the United States. This is due to the fact that many Americans are well, who are fast learning to like a food which has been universal among Italians for centuries. There are numerous factories in the United States using in the neighborhood of 20 barrels of a day in the manufacture of paste food products.

SPARROW'S PUBLIC BATH.
One of the Pretty Signs of Union Square, N. Y., Is to See Birds in Daily Dip.

One of the pretty sights in Union square, New York, is to see the sparrows have a daily dip in the fountain. They do not come to the fountain until the lily pads have grown to good size, for the lily pads are their bath dishes.

A bird will fly down from the trees or in from the curb, where it has been fighting with one of its fellows, and alight fairly in the middle of a lily pad. The weight of the little thing is just enough to cause the pad to dip full of water, and by staying near the center the bird keeps the pad in a sort of saucer shape that holds the water. He splutters and flaps his wings gently, making the water from his lily pad dish fly all over him, and when at last he has finished his bath he darts away to the stone coping or back to his tree top to dry.

Here at their public bath is one place sparrows do not fight. There seems to be a settled etiquette of the bath. If there are more birds than pads or if the bird has just left and the pad has not yet straightened out and thrown the water back into the basin of the fountain, the bird will perch on the coping or on the fountain pipe and wait their turn. No two ever get on one pad, but there are times when every pad has its own bather, and, pretty sight that it is, there are many among the strange collection of loungers in the square that have never seen it.

JAPAN'S BANK DEPOSITS.

System by Which Tens of Millions Conducts War Is of Great Value.

"Seventy-five per cent. of the Japanese expenditures in the present war with Russia remain in Japan, and, as a result, the deposits in the banks of the island kingdom are larger than they have ever been before," said Franklin B. Morse, son of the first American consul to Tokyo, according to the Washington Post.

"The working of this is simple and accounts for the present conditions in Japan. The Japanese government has given its orders for these provisions to the farmers and fishermen of Japan, who, when they receive the money, deposit it in bank mostly, and when a national loan is called for are prepared to loan the government the very money that they have been paid. In addition to this fact that all the money used by the Japanese in the island is made to stay at home, it is evident why there is but 30 per cent. is left to go outside of the country."

THE ANIMUS OF ANIMALS.

Big Beasts are Easily Trained, But Never Tamed—Some of Their Tricks.

"Wild animals have a great many ways of showing their contempt for humankind," said an artist who has made a specialty of modeling animals.

"Everybody has an idea that elephants become tame and even fond of people, but that is also a great wrong. They are easily trained, but are never tamed. They are docile just so long as the keeper has his hand on the memory of a burning order. I had proof of this one day while modeling one of the elephants in a big animal show. I was sitting in his stall with my modeling stand, not knowing that on certain days he was given an extra allowance of chain. Suddenly he flung his trunk around with such force that it smashed the stand to bits and sent me a dozen feet outside the stall."

"He never forgot his failure to finish me, and soon afterward he expressed his dislike in a more vulgar if less dangerous manner. As I worked I heard him snorting a loud sucking noise, but suspected nothing. At last, when he had his mouth quite full of saliva, he blew it toward me."

"This is not only a trick of elephants, but of other animals as well, as I have learned to my sorrow. Camels have the same habit, and while working near a camel one day I was treated to a shower of finely chewed cud."

This sculptor and other artists agree that the cat animals have a different mode of attack. "These groups less of spite and more of real hate in their method. Sculptors usually place their modeling stands as close to the bars as possible. This same one was once working close to the bars, when the beast inside lying very quiet, apparently asleep. Without even striking his eyelids, the big cat struck between the bars with his heavy forepaw, splintering the stand and sending the clay in wild on the floor. The artist, warned by a sixth sense developed by those who are much about animals, had jumped back just in time to escape."

THE WHEEL OF FORTUNE.

Office Clerks Use Electric Fan for Gambling Machine and Instrument Is Taken Out.

For several days the puzzle of the manager was wondering why it was that the electric fans in the rear of the office. It was even more odd that on his entrance the number suddenly lose their interest in the cooling breeze, says the New York Sun.

The other afternoon he was called into consultation with another man, and remarked to the chief clerk that should he not return it would be well to close up the office in the afternoon on account of the heat.

It was half past five when he stepped into the office. He knew that the place would be closed, but there were certain papers that he wanted to take home with him. To his surprise, the office door was open and he could hear excited voices. Just as he reached the doorway there was the whirr of an electric fan. The noise of the fan stopped, and there was an excited argument as to whether the number was two or three.

He was well into the room before his approach was observed, and he discovered that the chief clerk and his secretary were using the electric fan as a wheel of fortune. The four blades were numbered, and each took two of the blades. The fan was permitted to run for a moment, and when the current was shut off the number nearest the top of the guard won the prize—\$100. The fan is out of commission now.

Men's Lifting Power.

The lifting power of a youth of 17 years is 280 pounds; in his twentieth year this increases to 320 pounds; and in the thirtieth and thirty-first years it reaches its height, 365 pounds. At the end of the thirty-first year the strength begins to decline, very slowly at first.

For Lung Troubles

Ayer's Cherry Pectoral certainly cures coughs, colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. You know it is true. And your own doctor will say so.

My little boy had a terrible cough. I tried everything I could find of him. I was told to get Ayer's Cherry Pectoral. The first bottle he was cured. I am glad to recommend it to all who are suffering with coughs, colds, bronchitis, consumption, etc. - J. H. HARRIS, ALBANY, N. Y.

ANNUAL CONVENTIONS

Of the Christian Church—A Successful Year.

The W. B. M. of the C. C. M. C. and State Sunday School Convention, held in annual session in Mayville, beginning on Monday evening, Sept. 25, and closing on Thursday evening. Each convention made a fine report of work for the year. A joint session was held on Monday evening. Mrs. A. P. Finney, (nee Miss Lizzie Schlegel, of this city) delivered one of the responses to welcome.

The C. W. B. M. occupied all of Tuesday. Their offerings of all kinds for the year amounted to \$8,500.66. On Sept. 29, '05, there was left in the treasury \$560.70.

Twenty auxiliaries gave \$200 each for the Girl's Dormitory of Hazel Green Academy. A former Mt. Sterling girl, Mrs. Julia G. (nee Miss Mattie Boudgey) was elected as one of three vice presidents, and is the district manager of the 9th District.

Mrs. Julia Gernand, a wealthy woman of Lebanon, Ohio, who has twice visited the Hazel Green school, gave two talks on the work there.

H. C. Garrison, of Louisville, was President. From the report of H. W. Elliott, State Secretary and Treasurer, we take the following items for the past year:

FINANCIAL.
Collected from churches, \$1,000.00
Portionment, 100.00
Miscellaneous, 100.00
Work in field, 100.00
Support, 100.00
For local work, 100.00
Busses, etc., 100.00
Total for K. C. M. C., 100.00
State S. S. work, 100.00
Total for all State Missions, 100.00
Our brethren in the State have given for other organized missionary work as follows:
Foreign missions, 100.00
Gen. American Missions, 100.00
Church extension, 100.00
C. W. B. M., 100.00
Ministerial Relief, 100.00
Total for all work, 100.00
State missions, 100.00
Grand total for all work, 100.00
Cash on hand Sept. 29, 1905, 100.00
Evangelists in the field added to the church by baptism 521; re-baptism, 347; by letter, 272; other sources, 170. Total 1500.

For next year, H. W. Elliott, State Secretary and Treasurer, Sulphur, Ky.

EXECUTIVE BOARD.
C. L. Look, B. C. Dewese, W. H. Allen, Lexington; H. C. Garrison, Danville; V. W. Dorn, Georgetown; H. J. Dethrick, Hazel Green; F. C. Patton, Morehead.

PRESIDENT. H. D. Clark, Mt. Sterling.

SECRETARY. B. W. Trimble, Mt. Sterling.
No selection of place for next convention was made. The addresses and sermons were all of a high order.

The speakers were W. J. Wright, Cincinnati; Hugh McCallan, Richmond; C. R. Hudson, Frankfort.

F. M. Ryne, Cincinnati; H. D. C. McLachlin, Shelbyville; E. L. Powell, Louisville.

STUDENT WORK.
The committee recommends the employment of an evangelist who is to devote all his time to evangelistic work; that D. G. Combs be secured for such work in the mountains, and that R. B. Neal be aided in this work; that an agent be employed to secure large gifts from individuals for State work.

This work, if accomplished, will necessitate a large increase, about double, in apportionment list from the churches.

Judging by the past year, the prospect for next year is encouraging. Several workers from the field were introduced and made short speeches.

SUNDAY SCHOOL.
The president was E. S. Jonett, the talented lawyer and Sunday School Superintendent of Winchester. We are pleased to see that laymen of the congregations are being enlisted in the work.

RECEIPTS.
The treasurer's report showed receipts amounting to \$1671.62, expenditures \$1345.76.

55 schools contributed to field receipts. 92 schools observed Boys' and Girls' Rally Day for missions in America with \$1231.19. 214 schools observed Children's Day for foreign missions with \$1467.79. 73 contributed for two past years for support to the C. C. Widows and Orphans' Home at Louisville. 161 contributed directly to the Treasurer, J. S. H. on Louisville, for State Sunday School work. 12 district conventions were held this year.

S. S. DAY.
On this day (last Sunday in April) our preachers are asked for a special sermon on the unity and work of the good Sunday School.

UNITARIANISM.
The Mt. Sterling Sunday School observed Boys' and Girls' Rally Day, Children's Day, for 2 years past contributed to the support of the Widows and Orphans' Home, was on the honor roll; entertained the district convention; gave its apportionment to State Sunday School work.

The Mt. Sterling Church gave its full apportionment, \$125, for State Missions, and contributed to other missionary funds; furnished for next year the President; and Secretary who has served seven years.

Favorable mention was made of the Young Woman's G. M. S. of this city, organized in February. There are now 42 members. They have raised \$143.00 of which \$100 was given to Hazel Green Academy for scholarships. We are gratified to know that so many of the young women of our congregation are giving their thought, time and effort to religious matters.

"Who severs tooth with his own horn, the same shall not be torn." These words were printed on the picture of a large horn, advertising the song books, for sale by the leader of songs during the convention, W. E. M. Haackemeier, of Indianapolis.

The weather was ideal. The delegates, not including Mason county, were 400 to 600 on different days. Dinner was served each day in the basement of the church. Two hundred could be served at a time. The people of Mayville, by their gracious hospitality, endeared themselves to the visitors.

The writer and his wife were guests of the Rev. Dr. J. C. Molloy, of the Presbyterian Church. We were much attached to their little daughters, Laura Stockton and Jeanette, aged 6 and 4 years. Long will we remember the gracious hospitality of this cultured family.

Our time was so occupied with the conventions that we had no opportunity to get useful facts and observations concerning the city.

The city reminded us of "sweetness long drawn out." It is from one to three blocks wide, traversed

on Second street by an electric car line. We stood on the banks of the Ohio and looked across to the noted Aberdeens who so many love sick couples have married in haste and repented at leisure. We did not get married that way.

We were pleased to hear that Dr. J. B. Taulbee and son Woodson, are having a fine practice. We met the father. We might say more about convention, city, etc., but here we rest.

Presbyterians Denounce Herrick.

The most radical resolutions yet presented against Governor Herrick, were adopted by the Lima Presbytery, in session at Gomer, Ohio. Further, a committee was named to present the same resolutions to the State Presbytery, which meets in Zanesville next month. The resolutions read:

"Owing to Governor Herrick's attitude toward the Brannock bill and to the fact that he is but a creature of Boss Cox, of Cincinnati, every one is advised, for the sake of righteousness, to vote for John M. Pattison, for Governor, not because he is a Democrat and against Herrick, but because the one stands for righteousness and right and the other does not."

It will be seen from the above that Gov. Herrick is opposed not because he is a Republican, but because he is regarded as an ally of the whiskey men. Other reports indicate that the people of Ohio are demanding that their candidates for Governor stand for enforcement of laws bearing on temperance.

Large Shipment From Kentucky Of Whiskey.

Kentucky's shipments of whiskey to the Pacific coast for export are enormous. The entire trade of India, China, Japan, the Philippine Islands, portions of Africa and other eastern countries, is supplied through Pacific ports. Any reduction in freight rates will have a stimulating effect upon this trade, and not only result in a reduction of both the wholesale and retail prices, but will increase a trade which is just obtaining its foothold in that territory.

At present almost one-third of Kentucky's product is shipped to the Pacific coast. Only about one-half of this is exported, as all the Western States, including Alaska, Canada, Mexico and portions of South America, are supplied from distributing points on the coast.

BANK MONEY ORDERS.

We take this opportunity of calling your attention to BANK MONEY ORDERS, a new feature in banking which we are introducing. You will find them convenient for sending small amounts of money to other cities in payment of merchandise, subscriptions to papers, etc. They are absolutely safe and are payable everywhere. Their payment is guaranteed by the American Surety Company, of New York, which has a capital of \$1,500,000. We issue a receipt for each order purchased. You do not have to write out an application for them, as you do a Postal Money Order, and you are thus saved delay and inconvenience. The cost is also less than the money orders, being as follows:

Amounts \$5 and under, 7 cents,
Amounts \$5 to \$10, 10 cents,
Amounts \$10 to \$25, 15 cents,
Amounts \$25 to \$50, 20 cents,
Amounts \$50 to \$75, 25 cents,
Amounts \$75 to \$100, 30 cents,

Judge H. Clay McKee and wife are at Martinsburg, Ind., for his health.

W. P. Hale and family have returned to Lexington, and his address is 215 East Maxwell street.

Misses Mae Moffett and Anna Jefferson Sharp, of Shilohburg, were guests in our city on last Friday.

Mrs. James Robertson and Miss Ella Sonally, of Homer, Ind., are guests of their cousin, Mrs. Bruce Trimble.

Rev. J. K. Hollis and wife and Mrs. K. Q. Irick and daughter, Miss Ann Laura, were in Louisville Monday and Tuesday.

Miss Louise Wood, of Washington, D. C., who has been in Kentucky since July 24th, returns home tomorrow night, accompanied by Miss Mary Wood, of this city.

Ben R. Turner was here for registration.

R. A. Mason, of Lee, is visiting in the county.

J. M. Elliott, of Missouri, came on Saturday to spend a few days.

Miss Irene Hedges returned last week from a twelve weeks' visit to her sister in Dayton, Ohio.

S. N. Hall, wife and children, who have been visiting her mother, Mrs. M. W. Anderson, returned to their home in Kansas City, Mo., today.

Miss Susie Fox, of Lexington, spent Sunday with Mrs. Chas. Donohue. For a year she has been visiting her sister, Mrs. Rogers.

There are 57 life insurance companies in Kentucky. They paid out in dividends in 1904 \$31,046,975. Of this the Northwestern Mutual Life paid \$5,340,482, or one-sixth of the dividends paid by the 37 companies—making it the largest dividend paying company in the world. Ask ARNOLD about it.

RELIGIOUS

Rev. W. R. Shipley, of Alabama, is assisting Pastor L. C. Kelly in a meeting with Shilohburg Baptist Church.

Beginning next Sunday and continuing for a week, special services will be held at the Christian Church by Rev. H. I. Clark. All are invited.

Presbytery of Ebenezer will meet in Lexington on next Monday, and the synod of Kentucky in the same church on Tuesday. Rev. Geo. A. Joplin will represent the First Presbyterian Church of Mt. Sterling, with either Dr. Howard VanAntwerp or Mr. Will Apperson as elder delegates.

Next Sunday will be "Rally Day" at the First Presbyterian Church and Sunday School. A very attractive program has been prepared. There will be recitations and singing by the Sunday School. Miss Anna Bell Donahue will also sing and there will be a short address by the pastor. The services will begin at 10:30. A very cordial invitation is extended to everybody.

The Christian Church was occupied last Sunday, having been closed for repairs. A new carpet, attractive frescoing, more chandeliers, vanishing, etc. have added much to the appearance of the building. The floral decorations were beautiful. Brother Clark's words of gentleness, hopefulness and encouragement for greater usefulness in Christian work were as beautiful as his surroundings.

Ministers and leading church men in Central Kentucky will hold a conference in Lexington, beginning this afternoon and closing on Friday night, preparatory to revising a new edition of the Christian Manual. Three sessions will be held daily, most of the talks are limited to 20 minutes. The program calls for 30 speeches, besides discourses. Rev. Joplin, of this city, speaks on "Personal Prayer" on Thursday at 3:10. Meeting at 7 P. M. C. A. building.

Rev. Levens Edley, who had been a teacher in the Kentucky School for the Deaf and Dumb in Danville, Ky., for thirty-two years, dropped dead in the classroom last week. Mr. Edley was a Presbyterian minister and was for many years stated clerk of Transylvania Presbytery and the Synod of Kentucky.

Dr. Arthur Weir Johnston, one of the most noted surgeons of the country, died last Thursday afternoon at his residence in Cincinnati, Ohio, after a long and severe operation for appendicitis. Dr. Johnston was born near Danville, Ky., in 1853, and was educated at Centre College, Danville. Taking up the medical profession, he spent seven years in study in the United States, and was a pupil of Dr. Lawson Tait late of Birmingham, England, who stood at the head of his profession in England as a specialist in abdominal surgery. He formed a partnership with Dr. A. McKee, of Danville, but soon moved to Cincinnati, where he at once took high rank as a surgeon, and as a student he made much original research, which has attracted the attention of scientists throughout the world.

Preaching at the Northern Presbyterian Church next Sabbath morning.

Rev. J. B. Meacham will preach at the Presbyterian Church in Owensville, Ky., next Sabbath evening at 7:00 o'clock.

The superintendent of the First Presbyterian Sunday School has sent out a notice gotten up in the form of a telegram to the teachers of his school calling their attention to the fact that next Sunday, October 8, will be Rally Day. It is a festive design and should have the result desired.

A protracted meeting will begin at Springfield Church next Sabbath afternoon at three o'clock. Free services during the week will begin at seven o'clock each evening. Rev. R. P. Hayles, of Shelbyville, Ky., will do the preaching. Mr. Hayles is a young man, bright and energetic, well adapted in every way to the great work to which he has been called. We are fortunate in securing the services of such a man.

DEATHS

McClure—On Sunday afternoon, October 1st, 1905, Mr. Andy McClure (son of Jack McClure, deceased) died at his home on Kiddville pike. He was a bachelor and lived with his sister.

The funeral of W. J. Wallis and wife will be preached at the grove near the Consolidation on Sunday, the 15th of October, by Revs. Center Gervod, Lykins and Linkous, and dinner on the ground.—Hazel Green Herald.

HEDDEN.—Mrs. Susan Francis Hedden departed this life at her home in Shelby county Tuesday afternoon, September 26, 1905, at 1 o'clock, from an acute attack of pneumonia. Funeral services will be held at the late residence, conducted by Rev. B. P. Hingerson, a friend and neighbor for more than forty years, and the burial was in the Salem Church Cemetery. Had she lived until Saturday, the 30th of September, she would have been eighty-four years old. She was married in 1846 to Jacob Hedden and lived near Mt. Eden, Shelby county, until 1864, when she, with her husband and family, moved to Hemp Ridge, where she lived until death. She made a public confession of her faith in Christ in 1854 and became a member of the Mt. Moriah Baptist Church. In 1865, having moved away from that part of the county, took membership in the Salem Baptist Church, where she was a consistent member until the time of her death. She was the mother of nine children, eight of whom survive her and were at her funeral—Misses Mary Kate, Helen A., Susan F. and Bettie, of Shelby county; James B. and R. J. Hedden, of the same county; Mrs. E. G. Barnett, of Louisville, and J. W. Hedden, editor of the Advocate at Mt. Sterling, Ky. Amanda died in infancy at the age of two and one-half years. Her mother said: "She was a true Christian woman. As well as streamers to make the sun a greater luminary as to contribute a glory to add to her Christian graces and womanly virtues. She had left to family and friends the example of a noble life; may they remember and practice her Christian graces and prepare to meet her. When these long parted meet again and those who meet will part no more." It is mother who is watched and considered from the cradle to the grave. The babe's first signs of intelligence is quickly given by the living mother who asks God's direction and care. It is mother who advised her girls from womanhood, through motherhood, and into the life with their own. Mother who loves her boys and never permits a day to pass without committing them into the hands of the living Father. It was she who was last at the Cross and first at the Saviour's arm. The noble with marked piety, the old-time religion, repentance toward God, faith in the Lord Jesus Christ and a consistent living is mother's life. She remembers her children in prayer, and at every passing that her heart does not go up to God in their behalf. Such is the life of the true, loving, Christian mother, and such was the life of this mother. We will miss her, but her loving motherhood, and her faithful occupancy by mother is vacant now, and when we look that way we will long to see her the more, to hear her words of commendation and love. It is mother who is the best of mothers. The noble woman and ever long we shall be glad of God, meet her beyond the skies with all the redeemed. We want to emulate mother's pure life and be the image of her own conception. She was a devoted, reverent, a woman perfectly through Christ and fitted for the realm of God. May we all so live that while entering into that long sleep we may smile, while all around may weep. The love of memory have a mournful resting place.

"The air is full of flowers in Kentucky, and you are here for our love."

There is no death, however watched and waited for, that can ever reach the heart. There is no death, however watched and waited for, that can ever reach the heart. There is no death, however watched and waited for, that can ever reach the heart.

As we meet to say good-bye, take the last look and bury our dead, with the faith we shall meet in the beyond. "Thy heaven shall be that is given away." Grace is free. Yes, we will meet you mother, meet you and join with you and all the redeemed in praise to Him our Lord, King, and Savior.

Tipton.—Judge James D. Tipton, who died Monday evening, October 2, 1905, at 5:30 o'clock, of liver trouble, was 61 years old. He was the son of Emma and Bettie Tipton, and was the youngest of four children. Leaves two brothers, Dr. Walter Tipton, of Lykins, Magdon county, and Fletcher, of this county. Married Miss Sallie Clark, of Greenestown, who survives him. They had one child, a daughter, Miss Lizzie, who died in 1892. He was a member of the First Presbyterian Church, of Alma Lodge of Masons, and served two terms as City Assessor, and at the time of his death was Judge of the Mt. Sterling City Court. A dutiful son, kind and affectionate brother, father and husband, a true friend, a bold, true Mason, and conscientious Judge, was his life has ever been an open book and his friendship was unvarying. Because of the serious sickness of his wife a short

house service was held, and the judicial service was held at the First Presbyterian Church, conducted by Pastor Rev. Geo. A. Joplin, assisted by the pastors of the city churches.

TIPTON.—James Price, fifteen-month-old son of Alban Tipton, passed from earth to heaven on last Thursday morning. He was a bright and beautiful child. The Lord had use for him and took him to hold and draw parents and kinsmen nearer to God. We sympathize with the bereaved and ask them to turn their tearful eyes upward, for where God is, there is the love one.
